Compliance: DPDP Act, TRAI/DLT SMS, idempotent admin operations

Integrations: iSportz live feed, Salesforce, Razorpay, Gupshup SMS

Infra: Docker, Kubernetes, CI/CD

EXPERIENCE

Product Engineer — Turbostart

Apr 2025 – Present | Bengaluru

- Built **MCA Fantasy League** — the official T20 Mumbai Cricket fantasy platform — end-to-end across web, admin, and mobile on one backend. **Serving 540K+ users** on the MCA fan platform.
 - Real-time scoring engine ingesting live **iSportz** match feeds and pushing updates over WebSockets with per-match channel scoping for high-fanout match-day load.
 - **Rotating-JWT** auth with one-time-use refresh + grace window, idempotent admin operations (publish XI, contest lifecycle), and **DPDP-ready AES-256-GCM** PII encryption with SHA-256 sidecar hashes.
 - **DLT-compliant SMS** for Playing XI announcements via Gupshup with idempotent per-match guards.
- Built **KAI ~ GUS**, a multi-tenant AI chat & voice platform (FastAPI, MongoDB, Next.js) — owned the auth + user service, role tokens, persona configurations, and white-labeled tenant dashboards.
- Created **KAI Insights** — DIY bot demo generator with live previews and zero DevOps dependency. Reduced demo creation from hours → seconds.
- Developed **Luna** — AI voice agent (Ultravox + Plivo + Gemini) with inbound & outbound flows, transcript analysis, and automated lead extraction. Optimized streaming pipeline for sub-second perceived latency.
- Led **AuraML** as team lead (**5 engineers**) — delivered multi-realm Keycloak SSO, Razorpay billing automation, and ECDSA-based licensing for enterprise deployments.
- Built **Cloudverse FinOps (Chargeback Module)** with NestJS, GraphQL, ClickHouse, PostgreSQL & Prisma — high-performance financial pipelines for accurate cloud cost allocation across tenants and business units; Next.js + Ant Design dashboards for real-time cost visibility and attribution modeling.

Software Engineer — Turbostart

Aug 2023 – Mar 2025 | Bengaluru

- Delivered the **T20 Mumbai** ecosystem — website, Android/iOS apps, and real-time auction system (Socket.IO) broadcast live on **Jio Hotstar**.
- Built **Turbostart Investor Portal** (Web + Mobile) with React, Node.js, Salesforce integration, and Razorpay billing.
- Developed large-scale platforms — Startup Portal, Alumni Portal, Scout by TS.
- Shipped multiple production mobile apps using Ionic React + Capacitor.

Software Engineer — **LearnCab (Nulurn Edutech)**

May 2022 – Aug 2023 | Bengaluru

- Built and maintained learner-facing web applications using React and Node.js.
- Improved performance, reliability, and UX across core learner flows.

Internships

- **Software Engineer Intern — LearnCab** (Mar 2022 – May 2022)
- **Intern — Gofu Technologies** (Jun 2019 – Aug 2019)

EDUCATION

B.Tech, Computer Science — Presidency University, Bangalore (2017 – 2021)

IMPACT

- Built MCA Fantasy League serving **540K+ users** on the official T20 Mumbai cricket fan platform.
- Delivered **16+ production systems** across AI, SaaS, real-time, FinOps, and mobile domains.
- Built systems running in **live broadcast environments** (Jio Hotstar T20 Mumbai auction).
- Led engineering teams and shipped enterprise authentication, billing & licensing systems.
- Shipped **DPDP-ready and DLT-compliant** systems for regulated production environments.
